Certifications

Scientific Computing with Python (In Progress)

Work History

Freelance Web Developer, 01/2025 to Current

RESTweb Dev – Miami, FL

- Designed and developed responsive websites and web applications customized to client specifications
- Created high-fidelity wireframes and UI designs using Figma to guide the development process
- Collected and organized client assets (logos, content, branding materials) via Google Drive for streamlined collaboration
- Deployed websites using Vercel, ensuring fast performance and seamless CI/CD integration

IT Assistant, 01/2025 to Current

Lee Construction Company – Miami, FL

- Assisted with hardware troubleshooting, software installations, and network maintenance
- Provided support for internal IT systems and ensured minimal downtime

Bartender, 11/2022 to Current

Tap42 Midtown – Miami, FL

- Led bar operations, including training new staff, managing inventory, and maintaining high service and quality standards
- Played a key role in fostering a fast-paced, team-oriented environment while ensuring consistent guest satisfaction

Property Manager, 01/2021 to Current

MJEstates – Miami, FL

- Built and nurtured client relationships through lead follow-ups, sales outreach, and consistent communication
- Managed residential and commercial properties on behalf of clients, including rent collection, vacancy fill-ups, and tenant coordination
- Scheduled repairs and maintenance, liaised with vendors, and ensured timely resolution of property-related issues
- Handled city permitting and compliance matters to support smooth property operations and business continuity

Restaurant Manager, 05/2017 to 10/2020

Yardhouse – Coral Gables, FL

- Progressed from server to bartender, ultimately taking on the role of Restaurant Manager
- Oversaw day-to-day operations, including staff scheduling, inventory management, and vendor ordering for bar and kitchen supplies
- Handled guest relations and resolved issues promptly to ensure a high-quality dining experience
- Input and tracked sales, inventory, and performance metrics to support business decisions and maintain operational efficiency
- Played a key role in keeping the restaurant running smoothly and supporting both front-of-house and back-of-house teams
- Carefully interviewed, selected, trained, and supervised staff.

Education

Bachelor of Arts: Computer Science, 12/2024

Florida International University - Miami, FL

Associate of Arts: 01/2014

Miami Dade College - Miami, FL

Relevant Projects

Property Management Web App Stack: Django, React, PostgreSQL

- Developed backend REST API using Django and PostgreSQL
- Implemented JWT authentication and user management functionality
- Designed frontend layout using Figma
- Currently building and connecting the frontend with the backend

Cuba Bakery Website

Stack: Next.js, Vercel, Leaflet

- Built a fully responsive website for Cuba Bakery using Next.js
- Integrated Leaflet maps and designed interactive UI elements to enhance user experience

Lee Construction Website

Stack: Next.js, Vercel, React, JavaScript, Tailwind CSS

- Developed a responsive marketing website for Lee Construction Inc
- Implemented modern UI components and smooth user interactions with Tailwind and React
